

# Siltech® Zero Ohm Link®

A new, revolutionary, patent-pending, add-on cable for high-end audio and video systems. The cable works in parallel with every balanced or unbalanced RCA, Cinch, XLR cable.

The net result is:

- Lower noise*
- Uncovered micro dynamics from noise*
- Improved dynamic range for sound and picture*
- Improved Bass, Midrange and Treble*
- Improved stereo image and depth of sound field*
- Lowered audible and measured distortion*

## Instruction:

Replace your original cable with the " Zero-Ohm-Link®" and plug your original cable back into the " Zero-Ohm-Link®". The total sound quality will improve dramatically without changing its original character.

## Technical:

Reduces distortion by 30 – 70% in an existing audio system without modifying the apparatus. It has a built in ultra high speed filter (>20GHz), ensuring perfect phase even at extreme frequencies. The Signature model contains a HPSR™ filter constructed around an extreme purity silver crystal. The ground wires of the Ruby and Diamond are high purity solid silver-gold of G7 technology.

## Model:

Ground conductor	Jade	Ruby	Diamond	
Coating	Silver-copper- goldG7	Pure silver-goldG7	Pure silver-gold	metallurgy
Series filter RCA	Gold	Rhodium / Gold	Rhodium / Gold	
Series filter XLR	G7 silver-gold	G7 silver-gold	2 single silver crystals	HPSR™ filter
	G7 silver-gold	G7 silver-gold	4 single silver crystals	HPSR™ filter
