260D

CD Transport/ Optional DAC

The MOON 260D CD Transport with optional 32-bit DAC is the next evolutionary step in combining high-performance, useful features, CD playback and music streaming into one chassis. Borrowing much of its technology from the more exotic and costlier 650D, the 260D offers superb flexibility as a result of being a CD Transport and a DAC all-in-one. Regardless of the music source you are listening to, the MOON 260D will reproduce your music with high resolution and superb musicality.

- Proprietary CD drive system mounted on our M-Quattro gel-based 4-point floating suspension for vibration damping, allowing ambient and spatial cues in your recordings to come to life like never before.

- Two (2) digital outputs – S/PDIF and AES/EBU.

With Optional Digital-to-Analog Converter:

- True 32-bit asynchronous Digital-to-Analog converter. ▪ 3 digital inputs (S/PDIF x 2, TosLink x 1 allowing for a connection to virtually any digital source.

Specifications

| | |
|--|--|
| THD @ 1kHz, 0dBFS (A-weighted) | 0.005% |
| Intermodulation distortion | 0.005% |
| Dynamic Range | 120dB |
| Signal-to-noise Ratio | 120dB @ full output |
| Channel Separation | 116dB |
| Shipping weight | 16lb/7.5kg |
| Dimensions (width x height x depth) | 16.9 x 3.4 x 13.1 in 42.9 x 8.6 x 33.3 cm |

| | |
|---------------------------------|--------------------------|
| Intrinsic Jitter | 1 picosecond RMS |
| Analog Output @ 0dBFS | 2.0V |
| Analog Output impedance | 75Ω |
| PCM Bit-depth range | 16-24 bits |
| PCM Sampling Frequency rates | 44.1 - 192 kHz |
| Frequency Response (full range) | 2Hz - 100kHz +0/-3 dB |

Available Finishes Black 2-Tone Silver
