

COLLECTOR'S EDITION
POCKET SURVIVAL TOOL®

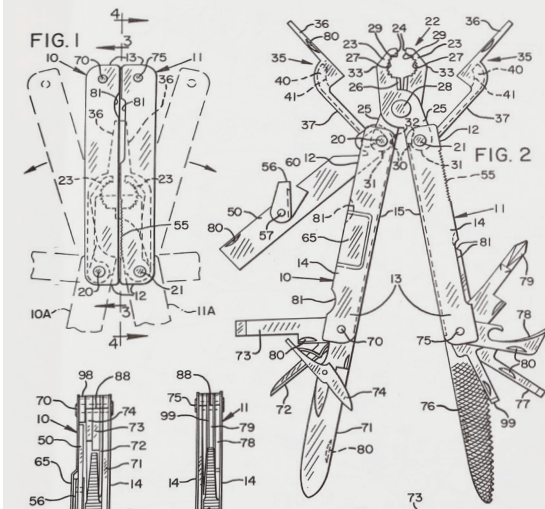

MAKING OF THE PST: **THE JOURNEY**

A young Tim Leatherman, with a degree in Mechanical Engineering from Oregon State University, and his wife take a trip to Europe. Along the way, they constantly battle leaky hotel plumbing and other obstacles. Their budget \$300 Fiat requires multiple road-side fixes. He had the right know-how, but not the right tools.

“I was carrying a scout knife and used it for everything from slicing bread to fixing the car. But I kept wishing I had a pair of pliers!”

U.S. Patent Dec. 16, 1980 Sheet 1 of 3 4,238,862

MAKING OF THE PST: **THE BASEMENT YEARS**

Back home in Oregon, he took his idea, some sketches, and got to work. Well, after convincing his wife to give him one month to pursue his dream full-time.

“I went to the garage and picked up a file and hacksaw and tried to build what was in my mind.”

Three years later, he had a tool that he liked—the newly patented “Mr Crunch,” no. 4,238,862.

Dear Mr. Berlinger,

Thank you for your recent letter concerning the pocket survival knives.

At this time, we do not anticipate marketing your product. However, we appreciate your interest in The Sharper Image and welcome the opportunity of reviewing new products.

Thank you again. We hope you will continue to keep us informed of new products as they become available.

MAKING OF THE PST: **PERSEVERANCE MEETS REALITY**

Knife companies thought his invention was a tool. Tool companies thought it was a gadget. Neither were interested.

Frustrated but not defeated, he got a “real job” to support his passion. For the next four years, he kept trying to sell his idea. And received rejection after rejection.

So, he partnered with his college friend, Steve Berliner. Steve’s fresh ideas and companionship rejuvenated and liberated Tim.

MAKING OF THE PST: **AN OREGON ORIGINAL**

After some valuable advice from a Seattle magazine, Steve and Tim had an improved prototype. Cabela's asked to see it in person. In May of 1983, Cabela's placed their first order for 500. By December, the two had sold and produced nearly 3,000 multi-tools.

Thirty-five years later, Leatherman Tool Group, Inc. continues to live up to Tim's legacy of unwavering perseverance, ingenious design, and a commitment to quality.

To commemorate his legacy, we're proud to introduce a Collector's Edition Pocket Survival Tool. An exclusive, serialized set of 500 based on the original "Mr. Crunch," it's completely handcrafted and built in Portland, Oregon. Just like every multi-tool we make.
